2023 COMMUNITY GARDEN User Agreement

The University of Northern Colorado is pleased to offer community garden space for Greeley residents. At the community garden, residents can grow their own fruits, vegetables, herbs, and flowers using organic gardening methods. Amenities include a dedicated water source for each plot, compost, and organic garden debris haul away. The cost to rent a plot is \$25.00/plot.

To reserve a plot or to be placed on a wait list, please email an application to Sarah Boyd at Sarah.Boyd@unco.edu. For additional information please call 970-1-1263.

For UNC to continue to offering community garden space all plot renters must agree to the following terms and conditions:

Trash Barrels: One trash barrel will be provided for disposal of noxious weeds and incidental trash. The barrels are not for the disposal of general weeding debris or structural garden materials brought in by

Compost:

3/11/2024

3/11/2024

notified by email that the plot is slated for tilling. Gardeners will have one week to bring the plot into compliance. Allowing a plot to repeatedly enter an "unmaintained" status may prevent the applicant from renting the following year.

Assumption of Risk. I promise to act with due care during my participation in all Community Garden program activities. I acknowledge that I am fully aware that there may be hazards and risks involved
