S/U Grading Option Policy

DISCUSSION:

- The UGC revised based on our feedback at an earlier meeting. Major issues considered were which courses were eligible for S/U, the application date each semester, what counts as an 'S' and how to deal with major changes.
- APC members indicated that we need to better define what S and S- are somewhere in the policy and catalog.
- There was discussion about how to deal with major changes that would bring S grades into major courses. The registrar will need a form or some other mechanism to notify them of the need for an S/U reversal grade change. This will be a lot of work for the registrar.

- APC discussed again the goals of this policy and what it will achieve.
- Levin will update the policy to capture APC suggested changes about allow S/U courses to count for major/minor/certificate requirements when a student adds that major/minor/certificate after taking the course.
