Critical Thinking:

Competency in critical thinking addresses a student's ability to analyze information and ideas from multiple perspectives and articulate an argument or an opinion or a conclusion based on their analysis.

Student Learning Outcomes (SLOs)

Students should be able to:

1. Explain an Issue

Use information to describe a problem or issue and/or articulate a question related to the topic.

2. Utilize Context

Evaluate the relevance of context when presenting a position.

Identify assumptions.

Analyze one's own and others' assumptions.

5. Understand Implications and Make Conclusions
Establish a conclusion that is tied to the range
of information presented.

Reflect on implications and consequences of stated conclusion.

1a. Critical thinking competencies are fostered and evaluated via the following:
