Many times instructors are predictable, creatures of habit. Instructors will typically construct each of their exams in the same fashion. The trick to increasing your success on your next exam is to identify the patterns used by the instructor for constructing the test from. If you are able to determine where exam material is being extracted from, you are a much more focused, successful, and proficient exam taker. After you take your first exam with an instructor, you can focus your studying on the most important resources and avoid spending too much time on material that won't be on the exam.

1. IMMEDIATELY AFTER THE EXAM, WRITE DOWN EVERYTHING YOU CAN REMEMBER ABOUT IT:
